

DREAM WEEKEND INTENSIVE

FROM DREAM SYMBOL TO PERSONAL BREAKTHROUGH

Special Announcement!

Chris Caldwell and I are thrilled to be collaborating for a Dream Weekend Intensive!

Chris has worked as a psychologist, counsellor and body worker for the past thirty years. In that time, he has conducted many workshops in Australia and the United Kingdom, and has taught extensively in several institutes in Melbourne.

Chris writes: " I have found throughout my many years of practice, that one of our most powerful resources for healing and growth is our dream world. I am still amazed and moved by the exquisite intelligence, transformative power and poetic beauty of our own dreams. It is always a privilege to listen to the wisdom of psyche as she reminds us of our deeper life. This sense of privilege extends to dream work with others, particularly with the energetic support of a group."

We hope to see you there!
